### ISO Harness Adapter for Citroen / Fiat /Mitsubishi / Peugeot

ISO adapter cables are used for the passive connection of retrofit devices to the factory plugs present in the radio installation slot. Depending on the vehicle and equipment, the following signals are provided:

12V continuous current  
12V ignition  
Ground  
Light  
Antenna remote  
Loudspeaker connection for front and rear loudspeakers

For vehicles with different equipment, signals that are not available may have to be connected to suitable tapping points in the vehicle (e.g. fuse box) or additional adaptations/interfaces may have to be used:

CAN bus interfaces  
LFB interfaces  
Amplified system adapter  
Camera adapter

The signals must be checked before connection.

#### Note:

connector: 20 Pin Nissan

vehicles without Rockford Fosgate amplified system  
vehicles without MMCS OEM Sat Nav\*

#### Usecase:

HU connector power/speaker

#### Vehicle application:

Citroen C-Crosser 2007 - 2013  
Citroen C4 Aircross (B) 2012 - 2017

Fiat Fullback 2016 - 2020

Mitsubishi ASX (GA0) 07/2010 - 2021
