ICE/55/CAM007

170° HD REAR VIEW

REVERSING CAMERA

Day / Night Vision Reversing Camera / Full Color / 170° Wide Angle / Waterproof

DESCRIPTION

Our latest reversing camera is the perfect solution for improving the rear view visibility of your vehicle. High definition, reversing guide line function, and a 170° wide viewing angle give you a full rear car view when you reverse, and allows you to easily spot potential hazards.

Hanging

Drilling

With an embedded mounting in the rear bumper and a snap-in design, CAM007 can be easily install with the provided drill and will be well hidden after the installation.

Water-proof
