● 1280*720 High Definition Image

This high-quality universal camera displays an incredibly high definition image. The camera can be connected to a monitor source with a VideoIn input, such as an aftermarket car stereo for example. Stop safely on the road and give yourself a full view of everything the rear view mirror fails to show.

● Super Wide Viewing Angle

● Rotatable Lens, to Get the Best Angle

The adjustable angle allows you to see into blind spots and helps to create a safer journey for yourself and other road users.

● Easy Installation

Easy to Install

- Monitor
- Camera power (24V-140)
- Camera

● Accessories

To Video Cable

To Power Cable
