## Specifications

USB InputConnect any device with an USB interface cable to charge your device or listen to clean, clear sound.

Apple CarPlayIs the smarter, safer and more fun way to use your iPhone® in the car. Apple CarPlay gives iPhone users an incredibly intuitive way to make calls, use Maps, listen to music, and access messages with just a word or a touch. Apple CarPlay requires iPhone 5 or newer with the latest version of iOS.

Android AutoExtends the Android platform into the car in a way that's purpose-built for driving and automatically brings you useful information and organises it into simple cards that appear just when they're needed. It's designed to minimise distraction so you can stay focused on the road ahead. Android Auto is compatible with Android phones running Android 5.0 (Lollipop) or later. Android Auto may not be available on all devices and is not available in all countries or regions.

WazeWaze is a social GPS driving/navigation app that offers map, real-time traffic, and various other information for you to access on the large display of Pioneer compatible multimedia devices .

WebLinkThe new WebLink app expands in-car entertainment with an amazing world of apps. Enjoy personalised music, videos, and other connected content powered by your phone/ tablet and the cloud.

DAB+Enjoy the convenience of listening to your favourite radio stations in crystal clear digital quality thanks to a built-in Digital Radio tuner.

Digital Radio Tick Mark Approved productManufacturers must meet the minimum specification, verified by independent testing. All Pioneer products that use this Digital Radio Tick Mark have been independently tested and approved so you can buy with confidence.

Bluetooth®Obey local driving laws with built-in Bluetooth (HFP). Wide Band Speech hands-free calling, wireless audio streaming (A2DP) with artist, album, and song search, simple pairing, and control audio (AVRCP), Bluetooth® wireless technology has made life in the vehicle safer and more convenient.

Made for iPod / iPhoneDirectly control your iPod / iPhone, for charging, music and video via an optional interface cable (sold separately), depending on your iOS device. Song, artist, time and album information are beautifully displayed on the touchscreen.

Siri Eyes Freemake use of your iPhone's Siri functionality through your unit's external microphone and the speakers of your vehicle

Compatible with AndroidConnect and listen to music stored on your device without the need for an app

SpotifyWith Spotify, just connect your smartphone to comfortably browse your favourite playlists, albums, tracks and artists using your headunit controls.

Display IlluminationMatch the display and key illumination to your vehicle's interior lighting with a range of over 210.000 colours and endless colour combinations.

FLACEnjoy FLAC lossless digital audio files in your vehicle with playback output at CD quality, without the need to convert.

13-band Graphical EQAdjust your audio output in detail for a music experience tailored to your preferences.
